Module title:	Software Engineering 2
Topic:	Weekly Submission 2: Chapters 1 and 2, Project Plan and GitHub Repository
Client:	NB: Write Your Own Client. Here based on the project you are doing
Submission due:	Friday, 9 October 2026 by 12pm

ACTION REQUIRED: Weekly Submission 2

WEEK 1	WEEK 2	WEEK 3	WEEK 4	FINAL
Proposal 2 Oct (Done)	Chapters 1 and 2 9 Oct	Chapter 3 and Design 16 Oct	Build and Test 23 Oct	Dissertation, App & Demo 29 Oct

Following your project proposal, this week you build the foundation of your dissertation. Submit a **draft** of Chapter 1 (Introduction) and Chapter 2 (Literature Review), a first project plan, and your GitHub repository. Use the templates in your project pack. Your work will be reviewed against the SPM622 Project Assessment Rubric, which is the same guide used to mark your final dissertation.

WHAT YOUR GROUP MUST SUBMIT

#	DELIVERABLE	WHAT IT MUST INCLUDE
1	**Chapter 1: Introduction**	Use the Chapter 1 template (folder 01). Background of the study; problem statement; research aim; 3 to 5 measurable objectives; research questions aligned to the objectives; proposed software solution; scope (included and excluded); significance.
2	**Chapter 2: Literature Review**	Use the Chapter 2 template (folder 02) and the Literature Review Matrix. Existing research; at least 3 similar systems compared on features, strengths and limitations; technology review; a clearly stated research gap; academic and industry sources (at least 8 recommended).
3	**Reference list**	One consistent referencing style (**Harvard referencing**) that you will use for the entire dissertation.
4	**Project Charter & Work Plan (version 1)**	Use the template in folder 09. Team roles, task breakdown, weekly milestones up to 29 October, and a basic risk list.
5	**Ethical Clearance Confirmation**	Complete the form in folder 00. State whether personal data, interviews, surveys or user testing are involved and how consent and privacy will be handled.
6	**GitHub repository**	Repository created, every member added as a contributor, and the link placed on the first page of your submission.

HOW YOU WILL BE ASSESSED (SPM622 PROJECT ASSESSMENT RUBRIC)

Weekly drafts are marked against the criteria below. Marks shown are out of 100; at the end of the project the total is converted to a mark out of 40.

RUBRIC CRITERION	MARKS	WHAT AN EXEMPLARY SUBMISSION SHOWS
1. Problem, Aim, Objectives & Research Alignment	10	Specific real-world problem with evidence of who is affected; one clear aim; 3 to 5 measurable objectives; research questions map directly to the objectives; scope includes and excludes.
2. Literature Review & Research Gap	10	Critical review of credible sources (not a descriptive list); at least 3 similar systems compared; gap clearly stated; accurate Harvard citations.
6. Version Control & Team Development Evidence	7.5	Starts now: repository created, every member added, README present.
8. Documentation Quality & Final Dissertation	7.5	Starts now: professional formatting, logical flow, clear grammar, labelled figures and tables, consistent Harvard referencing.

COMMON MISTAKES TO AVOID

- A vague problem statement or a scope that is too big or too small for the time available.
- Listing tools and articles without evaluating them or comparing them to your idea.
- Outdated, uncited or non-academic sources, and mixing IEEE and Harvard styles.
- Listing just website as reference without the correct format.
- Research questions that do not match your objectives.

SUBMISSION REQUIREMENTS

Due Friday, 9 October 2026 by 12pm for Review

- **Document Format:** One PDF per group, named GroupNumber_Week2.pdf (for example Group1_Week2.pdf), with your GitHub link on the first page.
- **Submission Portal:** The Group Lead submits once per group to Amenda Raganya (your Supervisor) via Teams by 12pm Friday.
- **Review Process:** Amenda Raganya (Project Supervisor) will review your draft against the rubric above and give feedback so you can improve before the final submission.
- **Final Submission:** Thursday, 29 October 2026, complete dissertation, source code, evidence folders and presentation materials via Campus Online (Turnitin similarity below 15%).
