SPM622 Project Assessment Rubric (100 Marks)

Software Engineering 2: Dissertation, Working Software Application & Presentation

RESEARCH & DOCUMENTATION **37.5 marks** Criteria 1, 2, 3, 8	SYSTEM DESIGN **12.5 marks** Criterion 4	BUILD **27.5 marks** Criteria 5, 6	TESTING & EVALUATION **12.5 marks** Criterion 7	PRESENTATION & INDIVIDUAL **10 marks** Criteria 9, 10	TOTAL **100 marks** Converted to 40 at the end

CRITERION, CHAPTER & EVIDENCE	MARKS	EXEMPLARY (80 to 100%)	PROFICIENT (60 to 79%)	DEVELOPING / UNSATISFACTORY (below 60%)
1. Problem, Aim, Objectives & Research Alignment Chapter 1 Evidence: Chapter 1; approved Topic Acceptance form	**10**	Specific real-world problem with evidence of who is affected; one clear aim; 3 to 5 measurable objectives; research questions map directly to objectives; scope clearly includes and excludes. **8 to 10 marks**	Clear problem and aim; objectives mostly measurable; research questions align with minor gaps; scope stated. **6 to 7 marks**	Vague problem; aim or objectives not measurable or not aligned to the questions; scope missing. **0 to 5 marks**
2. Literature Review & Research Gap Chapter 2 Evidence: Chapter 2; Literature Review Matrix	**10**	Critical review of credible academic and industry sources; at least 3 similar systems compared on features, strengths, limitations and lessons; technology choices reviewed; gap clearly stated and linked to requirements. **8 to 10 marks**	Good review and comparison of 3 systems; minor gaps in synthesis; gap stated. **6 to 7 marks**	Descriptive listing without evaluation; fewer than 3 systems; no clear gap; weak or outdated references. **0 to 5 marks**
3. Requirements & Methodology Chapter 3 Evidence: Chapter 3; Software Requirements Specification (SRS)	**10**	Stakeholders identified; functional requirements with ID, description and priority; measurable non-functional requirements; documented gathering evidence; SDLC/Agile approach justified; use cases or user stories; ethics, privacy and security addressed. **8 to 10 marks**	Requirements complete but some lack priority or measurability; methodology described but not fully justified; ethics briefly covered. **6 to 7 marks**	Incomplete or vague requirements; no justification of methodology; ethics, privacy or security ignored. **0 to 5 marks**
4. System Design: UML, Architecture, Database & UI Chapter 4 (4.2 to 4.5) Evidence: Architecture and UML diagrams; ERD (Database Design Template); UI wireframes	**12.5**	Clear architecture diagram; relevant, readable and consistent UML (use case, class, activity, sequence); ERD with keys, relationships and normalisation; wireframes with usability reasoning; design traces to requirements. **10 to 12.5 marks**	Diagrams present with minor structural issues; database and UI design adequate; most design traces to requirements. **7.5 to 9.5 marks**	Missing, unreadable or flawed diagrams; design does not match requirements. **0 to 7 marks**

CRITERION, CHAPTER & EVIDENCE	MARKS	EXEMPLARY (80 to 100%)	PROFICIENT (60 to 79%)	DEVELOPING / UNSATISFACTORY (below 60%)
5. Software Implementation & Functionality Chapter 4 (4.6 to 4.7) Evidence: Source code folder; README; working application	**20**	Working application implements all must-have requirements; database integrated; clean, organised code; input validation and appropriate security (e.g. login, roles); stable; matches the design; README explains how to run it. **16 to 20 marks**	Core features work; minor defects or incomplete secondary features; code reasonably organised; matches design in most areas. **12 to 15 marks**	Partial or non-working application; major requirements missing; mock-ups or hard-coded data only; cannot be run. **0 to 11 marks**
6. Version Control & Team Development Evidence Chapter 4 (4.8) Evidence: Git evidence: commit history, branches, pull requests, README	**7.5**	Meaningful commits from every member across the project period; feature branches; pull/merge evidence; descriptive commit messages; final version tagged. **6 to 7.5 marks**	Commits from most members; some branching; some vague messages. **4.5 to 5.5 marks**	Few commits, last-minute upload or one member only; no branching or evidence. **0 to 4 marks**
7. Testing, Results & Evaluation Chapter 5 Evidence: Test Plan; Test Cases and Results; Defect Log; Requirements Traceability Matrix	**12.5**	Test plan with strategy and entry/exit criteria; test cases with expected and actual results; defects logged, fixed and retested; traceability to requirements; non-functional requirements evaluated with data; stakeholder feedback used; honest evaluation against requirements. **10 to 12.5 marks**	Valid tests and results; basic evaluation against requirements; some defects documented. **7.5 to 9.5 marks**	Minimal or superficial testing; no data; claims not backed by evidence. **0 to 7 marks**
8. Documentation Quality & Final Dissertation Final Dissertation; Chapter 6 Evidence: Final Dissertation; Final Submission Checklist	**7.5**	Complete structure (abstract, declaration, contents, lists, six chapters, references, appendices); Chapter 6 evaluates every objective and answers every research question; limitations and recommendations; consistent Harvard referencing; labelled figures and tables; Turnitin similarity below 15%. **6 to 7.5 marks**	Complete and well structured; minor formatting or citation inconsistencies; Chapter 6 covers most objectives and questions. **4.5 to 5.5 marks**	Missing sections; poor structure; inconsistent referencing; Chapter 6 weak; similarity 15% or higher. **0 to 4 marks**
9. Presentation & Live Demonstration Presentation and Demo Script Evidence: Final Project Presentation; live demonstration; backup plan	**7.5**	Follows the required story (problem to results); live demo of the key user journey works with realistic data; backup plan ready; within time; strict formal business attire from all members. **6 to 7.5 marks**	Clear presentation; core features demonstrated with minor glitches; most members in smart attire. **4.5 to 5.5 marks**	Disorganised; demo fails or relies on mock-ups; casual or inappropriate attire; poor timing. **0 to 4 marks**

CRITERION, CHAPTER & EVIDENCE	MARKS	EXEMPLARY (80 to 100%)	PROFICIENT (60 to 79%)	DEVELOPING / UNSATISFACTORY (below 60%)
10. Individual Contribution & Professional Response Q&A and individual evidence Evidence: Individual Contribution Form; Git history; panel questions	**2.5**	Every member explains their own role, what they built and the problems they solved; confident Q&A; form matches the Git evidence and is peer-confirmed. **2 to 2.5 marks**	Most members explain their work; minor gaps in answers or evidence. **1.5 marks**	Cannot explain own work; form missing or contradicted by evidence. **0 to 1 mark**

ASSESSMENT GUIDELINES & SUBMISSION REMINDERS

- **Final submission:** Thursday, 29 October 2026, complete dissertation, source code, evidence folders and presentation materials via the official portal (Turnitin similarity below 15%).
- **Weekly reviews:** Weekly drafts are reviewed against these criteria so that groups receive feedback before the final submission.
- **Individual marks:** Criteria 6 and 10 are used to confirm each member's contribution. A member whose evidence does not support their claimed contribution may receive an adjusted individual mark.
- **Dress code:** Formal business attire / smart professional wear is required for the presentation and is assessed under criterion 9.
- **Conversion:** Mark each criterion out of its maximum (total 100), then convert the total to a mark out of 40 on the calculation sheet (total x 0.4). The criteria match the weights in the Excel marking sheet in the Assessment folder, multiplied by 2.5.

Marking & Calculation Sheet

Mark each criterion out of its maximum. The total out of 100 is converted to a mark out of 40 at the bottom of this page.

Group / Student: _____ **Project title:** _____

Marker: _____ **Date:** _____

CRITERION	MAXIMUM	MARK AWARDED	MARKER COMMENTS
1. Problem, Aim, Objectives & Research Alignment	**10**		
2. Literature Review & Research Gap	**10**		
3. Requirements & Methodology	**10**		
4. System Design: UML, Architecture, Database & UI	**12.5**		
5. Software Implementation & Functionality	**20**		
6. Version Control & Team Development Evidence	**7.5**		
7. Testing, Results & Evaluation	**12.5**		
8. Documentation Quality & Final Dissertation	**7.5**		
9. Presentation & Live Demonstration	**7.5**		
10. Individual Contribution & Professional Response	**2.5**		
TOTAL	**100**		

CONVERT TO A MARK OUT OF 40		
Total mark out of 100	x 0.4 (equivalent to dividing by 100 and multiplying by 40)	**Final mark out of 40**

Working: _____ (total out of 100) x 0.4 = _____ / 40. Example: 75 out of 100 x 0.4 = 30 out of 40.

Marker signature: _____ **Date:** _____
